CLARESHOLM LOCAL NEWS

Mrs. R. A. Shearer is entertaining her brother Mr. Alec Linton of Foremost.

Principal Stephen returned from Edmonton at the beginning of the week.

After a two weeks' leave of absence Mr. A. M. Fraser returned to Calgary the last of the week.

Save your dimes and buy war stamps. They are on sale at the post office and the local banks.

The anniversary of the Methodist church takes place next Sunday week. Rev. Clegg of Lethbridge will occupy the pulpit morning and evening.

W. D. Annable's sale held recently was one of the most successful ever held in Clareholm. Nothing pays better than good local advertising.

The town election which took place last Friday resulted in the election of J. W. Hallett to the council. He received 104 votes out of a total polled of 154.

Lance Corp. Frederick Lewis, a brother of Mrs. J. Beece, arrived from the front a few days ago. He was wounded three times and bears three stripes.

D. A. Anderson has purchased the meat market building which he has been occupying from T. Kingly. He will shortly raise the roof and build a brick front to it.

F. H. Slipp is selling a fine Chickering piano at his Sale on Tuesday, February 18. Through an oversight this important item was omitted from the sale announcements.

A meeting in the interests of the War Savings campaign will be held in Clareholm on Tuesday, Feb. 25. Mr. H. Allison, of Calgary, is expected to deliver the address.

Friends of Mr. and Mrs. Earl Hartwick of Lethbridge will be happy to know that they are the happy parents of a baby boy. Mrs. Hartwick was formerly Miss Beryl Storey of this place.

Fank McKenzie was taken down with appendicitis last Saturday and was hurried to Macleod by the night train. The operation which took place immediately was successful and he is now rapidly recovering.

One of our town automobiles was ditched six miles out on the Barons road early Wednesday morning. Two weary artists arrived in town at 4 a.m. We have not heard whether they were sober, but we presume that they were.

Dorothy's Ten Parental Commandments—Kex Theater Monday and Tuesday

Having to play in "The Talk of the Town," her newest Jewel Production, the role of a daughter, who whisks on the brink of sin's abyss, because no one had warned her in her youth of the pitfalls set for innocent young girls, unversed in life's mysteries, Dorothy Phillips, the emotional star, studied the problem of parents who mistake ignorance for innocence, and endured the following ten commandments for fathers and mothers to follow in making life's path less difficult for their daughters:

- 1—Explain the mysteries of life at an early age.
- 2—Do not refuse to answer any question your girl may ask.
- 3—Pick your servants carefully, for a thoughtless helper may divulge the beautiful secrets of nature in a vulgar manner.
- 4—Make your daughter feel the utmost confidence in you, so that she will tell you all her perplexing problems.
- 5—Exercise careful supervision over the friends your daughter chooses.

Their influence in her life is potent with either good or evil.

6—Encourage the society of nice boys of your daughter's own age. Restrict them in your house. It is better than forcing your daughter to clandestine meetings in the park.

7—Do not absolutely forbid anything. Remember "the forbidden thing is the thing desired."

8—Discourage the public dance hall.

9—Encourage her in simple dress. During seasonable costumes often invite insulting comments and remarks from men.

10—Do not be afraid to let her see how you play. They will show her the right and wrong paths for a young girl to pursue.

If you want to see what happened to a girl whose parents did not follow out these ten commandments, but who went exactly opposite to the ideas contained in them, go to the Rex Theater and see "The Talk of the Town," Monday and Tuesday, February 17 and 18.

NOTICE

To the ratepayers of the Municipality of Argyle, No. 30.
The Annual and Nomination Meeting will be held at the Grand Opera House on Thursday, February 20th, at 2 p.m.

On February 27th the vote will be taken for the election of Councillors and the new Hail By-Law.

As you are doubtless aware, the old Hail Insurance Act run out at the end of 1918. The new one is designed to meet with the approval of every ratepayer. The principal differences between the New Act and the Old are:

1. Under the old act you were compelled to insure whether you wished it or not. Under the new you may withdraw your crop from its operation and it remains withdrawn without a cent of liability to yourself, until you ask to have it re-included.
2. The levy under the old act was on all land; this was changed in 1916 to a levy on all land and a second 75% on the part in crop. Under the new act the levy is made on the part in crop that is insured only and the rate is set in the fall, so as to guarantee 100% on the dollar every year.
3. The rate of indemnity is \$800 per acre or six, as you prefer, as compared to only six under the old act.
4. The claims will be paid within thirty days of inspection.

There are several other differences which are considered beneficial and which have been the direct result of the last five years experience in the Municipal Hall business.

The whole question will be thoroughly discussed at Grandm on the 20th instant and it will be to your interest to attend.

M. R. MATHERSON, Sec'y.
A. H. TOWELL, Reeve-Treas.

For Sale

320 acres, E. 1/4 19-6-20 W. of 4th M. 24 miles east of Pincher Creek; 4 miles from Pincher Station; 115 acres now under cultivation; all but 30 acres could be broken; no brush; all barbed wire fenced this summer; 12 miles sheep fencing. FRIDAY, FEBRUARY 14, 1919

Many people in Alberta would have liked to have bought Victory Bonds, but for various reasons, most of which were associated with the war, they did not have enough money to secure those Dominion securities. They will have their chance now, for the War Savings Stamps will be within the reach of everyone and they will bring four and one-half per cent interest.

The daily papers of the Province are giving much prominence to the speeches of the Clareholm M. L. A. in the Provincial Legislature. We are pleased to see our member taking such a definite stand for law enforcement in the Province.

A man can combine patriotism and profit by increasing and improving his flocks and herds.

ALL ARE INVITED TO ATTEND

THREE SIGNIFICANT POINTS about ALBERTA MUNICIPAL HAIL Insurance which should secure YOUR VOTE---

THE LIBERAL WITHDRAWAL CLAUSES. Any crop may be withdrawn entirely from the operation of the Act by giving notice to the Secretary-Treasurer before 15th June. Crop destroyed by any other cause than hail may be withdrawn up to 20th of July and a proportionate refund of premium will be allowed.

EASY PAYMENT OF PREMIUMS. Premiums are payable on or before 15th December without interest. This gives you insurance on CREDIT at a CASH price.

THE CHEAPEST SAFE PLAN of Hail Insurance yet devised. It is not only a distinct asset to the individual but to the community as a whole. Moreover, the cost is so low that it does not prohibit any farmer from carrying additional insurance elsewhere.

For further information see your Secretary-Treasurer, or write

HAD WEAK AND FAINTING SPELLS

Those feelings of faintness, those weak, "all gone" sinking sensations, which come over you from time to time, are warnings that you are not so healthy.

They mean an extremely weakened condition of the heart and a disordered nervous system.

When the system is in this condition, there is no time to lose. A fainting spell may be recovered from—*with the right*. One dizzy spell may pass off, but the next may be more serious.

Those who are wise will start taking Milburn's Heart and Nerve Pills, before their case becomes deep rooted and perhaps hopeless.

They will act directly on the disordered heart and weakened nervous system and restore them to full strength and vigor.

Miss Mary McCoy, Algoma, Ont., writes:—*"I was awfully troubled with fainting and weak spells, and I could never get any doctor's medicine to help me. One day a friend of mine was at the house when I took one of these pills, and she gave me a box of Milburn's Heart and Nerve Pills. That night I was better, and from that day to this I have never had any of those spells. I would not be without your pills, and my mother, and can highly recommend them to you."*

Milburn's Heart and Nerve Pills are sold at all drug stores, and can be ordered direct on receipt of price by The Milburn Co., Limited, Toronto.

EDITORIAL

THE PUBLIC HEALTH

A subject which is undoubtedly going to command the closer attention of all governments in the future is that of the physical well-being and health of the people of the nation. In the past all governments have taken too much for granted in connection with matters relating to the public health, with the result that when they began to call up the problem of the nation by the hundreds of thousands, and even millions, for medical examination, politicians, and even the public generally, were amazed and startled to learn what a large proportion of the populations of various countries were handicapped by disease on physical defects of one kind or another, and in a large percentage of cases these discoveries were a complete surprise to the men suffering these disabilities.

This wholesale examination of the members of all the great countries of the world, and the fact that it has been so far advanced everywhere to the necessity of action to protect and conserve the public health, and what these discoveries have failed to do, the influenza epidemic, which has swept over the world during the past six or eight years, does the result is that in the future more attention will be paid to the all-important subject of the health, not merely of the individual, but of all the people, while communities and nations.

In the recently re-elected Lloyd George cabinet in Great Britain a ministry of health has been created with Dr. Christopher Addison as its head. In an interview shortly after his appointment, Dr. Addison said: "What we seek to establish is really a national hygiene department. It will have as its object the maintenance of the health of the nation."

If Coffee Disagree There's an easy way out.

There's no headache, no sleeplessness, no nervousness in

INSTANT POSTUM

A pleasant coffee-like flavor and an economical and easy in making will soon make it your favorite drink.

"There's a Reason"

laboratories with everything necessary for research and will have access to all information gathered by public medical officers. It is frequently possible to see an epidemic in the distance. We shall soon look to our intelligence department to give us warning of the approach of anything of the kind and to advise us as to the best means of dealing with it.

In Canada, there is a renewed and increasingly strong public demand for the creation of a Dominion department of health at Ottawa to perform for this country what the British ministry of health proposes to do in Great Britain.

Here in the Western prairie our provincial governments are also moving in the direction of improved and more drastic laws regulating matters of health, providing for the erection of hospitals in rural municipal areas, creating systems of municipal or district nursing, providing for the employment of nurses and the establishment of dental clinics in the country.

There is much compulsory reporting of many diseases which formerly were not reportable, and, generally, extending and strengthening the machinery which is intended to promote the public health.

That much can be accomplished along these lines is indicated by a statement made to the Saskatchewan legislature at its present session by Hon. George Langley in moving a resolution to the Saskatchewan legislature to call a committee to investigate the various health measures passed since 1910. Mr. Langley declared that he had succeeded in almost eradicating typhoid fever from the province, and in support of his statement quoted figures to show that while in 1910, with a population of 450,000, there were 131 deaths from typhoid in Saskatchewan; in 1918, with nearly double the population, there were only 12 deaths. The case had been reduced to 54, the difference between the ratios being 300 per cent. and 100,000 of population in 1918 as compared with a little over 7 in 1918.

It is well to be told, however, that the result is due to a statement made to the Saskatchewan legislature at its present session by Hon. George Langley in moving a resolution to the Saskatchewan legislature to call a committee to investigate the various health measures passed since 1910. Mr. Langley declared that he had succeeded in almost eradicating typhoid fever from the province, and in support of his statement quoted figures to show that while in 1910, with a population of 450,000, there were 131 deaths from typhoid in Saskatchewan; in 1918, with nearly double the population, there were only 12 deaths. It is well to be told, however, that the result is due to a statement made to the Saskatchewan legislature at its present session by Hon. George Langley in moving a resolution to the Saskatchewan legislature to call a committee to investigate the various health measures passed since 1910. Mr. Langley declared that he had succeeded in almost eradicating typhoid fever from the province, and in support of his statement quoted figures to show that while in 1910, with a population of 450,000, there were 131 deaths from typhoid in Saskatchewan; in 1918, with nearly double the population, there were only 12 deaths. The case had been reduced to 54, the difference between the ratios being 300 per cent. and 100,000 of population in 1918 as compared with a little over 7 in 1918.

possible. These prairie provinces should be among the most healthy countries in the world, and they can easily be made so by the exercise of the necessary elementary precautions.

GUARD THE BABY AGAINST COLDS

To guard the baby against colds, nothing can be so effective as the use of the baby's own tears. The tears are a mild laxative and are the best of all remedies for such and bowels working regularly. It is a recognized fact that where the bowels and kidneys are in good order that colds will not exist; that the health of the little one will be good, and that it will thrive and be happy and good-natured.

Mob Attacks Arsenal at Lima

Lima, Peru.—A mob of strikers attacked the arsenal here but were driven off by the troops. There were also many small encounters between strikers and troops throughout the city. The strikers made an unsuccessful attempt to burn the Callao railway station.

Hotel employees joined the strike and virtually all the hotels and restaurants are closed. The food problem is threatened to become serious. Communication with Morocha, where the copper miners strike, when a general strike was proclaimed throughout the republic, has been interrupted.

The Oil of the People.—Many oils have come and gone, but Dr. Thomas' Electric Oil continues to stand its position and increase its sphere of usefulness each day. Its sterling qualities have brought it to the front and kept it there, and it can truly be called the oil of the people. Thomas' has benefited by it and it would use no other preparation.

Negotiate for Crop Sale. Ottawa.—Negotiations for the sale of the 1919 wheat crop are under way in London between Canadian representatives and the British consuls. Official advice, so far, do not convey word of a definite agreement having been reached.

J. A. Maharg, M.P. of Moose Jaw and Dr. Maharg, of Winnipeg, are in London, representing the Dominion government as special representatives of agricultural interests. They are co-operating with Sir Robert Gordon and his colleagues from view to a satisfactory arrangement with the British government.

Holloway's Corn Cure takes the corn out by the roots. Try it and you'll see.

Berlin Will Retain Troops for Safety. Berlin.—The German government has decided to retain its troops in the city for safety.

Had Been Confirmed for Threatened Troubles in East. London.—A German wireless message received here says that all civilians will be armed to defend Berlin.

Gustave Nogué, in charge of the French defense ministry, is expected to speak in front of the foreign office, thanking the troops for their services.

The body of a man, who was killed in a recent explosion, was found in the city.

Minard's Lintment Cures Gargers in Cows. Paris.—The cabinet decided that German war prisoners hereafter should be employed in reconstruction work in the liberated districts.

The measures adopted provide that a minimum of 20,000 will

The Clareholm Review-Advertiser's Campaign

How to Become a Candidate. Start Now!

Clip the coupon on entry blank to be found on this page, fill in your name and address or the name of the one nominated and bring or send the entry blank to The Review-Advertiser office. The nomination is good for 100 votes—only one will be accepted for each candidate.

You will then be supplied with receipt books. It will not be necessary to wait until the list of names is published to begin active work, but you will be privileged to ask for and accept subscriptions for The Review-Advertiser at once. Some wait until the list of candidates is published to see if there are many or few. Don't do it.

As soon as you have made up your mind that you would like to have an up to date Musicphone, send or bring your nomination to our office.

Six Handsome and Useful Prizes. 10 per cent commission to non-winners. Thus Everybody Wins.

Second Prize

\$50.00 Case of High Class
Community Silverware
was purchased from
W. M. Ross, Clareholm
where it will be on display

THE OBJECT OF THE CAMPAIGN

The object of this Circulation Campaign is to add new subscribers to the Circulation of The Review-Advertiser. There are a number of persons who would be glad to subscribe for The Review-Advertiser if the opportunity was presented. We are giving the people of Clareholm this opportunity to get behind their own local paper and help us to accomplish our object, and in return for their efforts we will reward them handsomely by giving them the Prizes enumerated in this advertisement.

The Campaign will not last long—only a few weeks. Make the short time profitable to you. Get your friends and others to make a payment on subscription to The Review-Advertiser.

It costs nothing to enter the campaign. Call upon or write to The Review-Advertiser today.

RULES OF THE CAMPAIGN

Any person, man or woman, married or single, is eligible to compete.

Anyone may help a candidate secure subscriptions.

Voting ballots issued on subscription payments are good until the end of the campaign and will be pulled at the discretion of the candidate or The Review-Advertiser. Votes are not transferable, except in case a candidate wishes to withdraw from the campaign, and in that case he or she can give their votes to a person not already entered as a candidate. A person cannot receive credit for the votes of more than one candidate. In other words, no two or more candidates can give their votes to any person. In case of a tie for any of the prizes offered, the value of the prize tied for will be divided equally among those tying.

The Review-Advertiser's decision will be final in all matters pertaining to this campaign.

Candidates may secure subscriptions anywhere.

Cash must accompany all subscriptions where votes are to be issued.

Cash must accompany all subscriptions where votes are to be issued.

HOW PRIZES WILL BE AWARDED

First Prize, the \$125.00 Musicphone, will be awarded to the candidate having the greatest number of votes at the close of the campaign.

Second Prize, the \$50.00 Set of Silver, will be awarded to the candidate having the second largest number of votes at the close of the campaign.

Third Prize, the \$25.00 Lady's or Gentleman's Gold Watch, will be awarded to the candidate having the third largest number of votes at the close of the campaign, and so on until the Prizes have all been awarded.

EXTRA VOTE OFFER

During the Campaign there will be two offers of extra votes. The first offer will start on the 8th of February 1919 (the opening date of the Campaign) and will last for three weeks, and will be as follows:—

1000 Bonus Votes will be given to each and every candidate who sends or brings \$25.00 in subscription payments to The Review-Advertiser office during this period. The larger the amount you send in the more votes you will receive: for example \$27.00 in subscription payments will give you 1080 extra votes, and so on, which means a proportion of 40 extra votes given for each dollar over and above the \$25.00 already mentioned.

The second vote offer will start at the expiration of the first offer and will last for two weeks, and will be as follows:—

300 extra votes will be given to each and every candidate who sends or brings \$25.00 in subscription payments to The Review-Advertiser office during this period.

POINTS THE WAY

Below is the Entry Blank which counts 100 votes. Bring or mail it to The Review-Advertiser's office and you will be supplied with receipt book and the necessary information.

ENTRY BLANK

THE REVIEW-ADVERTISER'S CAMPAIGN

Good for 100 Votes

Date 1919

I nominate
(State Mr., Mrs. or Miss)
as a candidate in above campaign.

Signed

This entry blank will count for 100 votes if sent to The Review-Advertiser. Only one blank will count for a candidate. Fill out this blank with your name, or the name of a friend whom you think wants to win a prize.

FOR FURTHER PARTICULARS

Write, phone or call at The Review-Advertiser's office, you will then be supplied with the necessary blanks.

Claresholm Local News

Walter Tucker was a visitor in Calgary on Sunday.

R. J. Vance was a visitor in Lethbridge this week.

Mrs. Stanley Wyatt has returned from a week's visit in Calgary.

Dr. and Mrs. Lynn of Lethbridge were visitors in Claresholm last Sunday.

Mr. and Mrs. J. W. de Forest of Meadow Creek are spending the week in town.

G. B. Todd is having a big farm sale on Feb. 25th. A. E. Strange, Auctioneer.

L. G. de Forest spent Tuesday evening in Burns and took part in a concert held there.

Chas. Booth and Gilbert Smith were visiting the former's ranch in the hills on Sunday.

Come and see "The Brass Bulletin" at the Rex Theater Wednesday and Thursday, February 19 and 20.

The sacrament of the Lord's Supper will be administered next Sunday morning in the Methodist church.

Mr. and Mrs. Leo Pfefferle left on Tuesday morning for Winnipeg and expect to go as far as Chicago before returning.

Word has been received from Driver Doug Miller, wishing to thank the Red Cross and the Methodist church for the Xmas presents.

Sgt. S. H. Price and Corp. H. L. Price have been visiting their family in the hills on Sunday.

D. A. Anderson is installing a modern cooling system this week in his meat market and is remodeling his shop on the most approved sanitary plans.

"The Talk of the Town" will come to the Rex Theater on February 17 and 18. Charlie Chaplin will appear on the same program in "A Dog's Life."

For sale, an A-1 saddle pony, broken to drive single. Will be sold privately at Geo. B. Todd's sale on February 25. Apply Lena M. Todd, Claresholm.

Mr. Wellington Hamilton of Lethbridge has taken the mechanical form of the Vickers & Stirling's garage. He commenced his duties last Monday.

Short courses will be held in the School of Agriculture, beginning on February 17th and closing February 28th. The announcement appears in another column of this paper.

Lutheran church, Claresholm.—11 a.m. Divine worship in the Norwegian language. 12:45 Sunday school. 7:30 p.m., organization of the Young People's Society. A hearty welcome to all.—H. G. Faltland, Pastor.

On Tuesday, February 18, A. E. Strange, the popular auctioneer, will conduct a farm sale of the live stock, machinery, household goods, etc., of F. R. Shipp. This will be one of the really big sales of the district. The offering includes a registered stallion, registered cattle and registered hogs; choice pure bred stock.

Monday and Tuesday nights record crowds attended the Rex to see Mrs. Charlie Chaplin in "The Doctor and the Woman" and Charlie himself in "Shoulder Arms." Both productions are of the very highest class, and the house was deservedly packed to the limit. Mr. Edlund is securing very highly recommended plays and the people appreciate it.

Britain and U. S. Can Prevent Future Wars

Paris. — Success or failure of the league of nations depends almost wholly on Britain and the United States. This statement was made to the United Press conference by Lord Curzon, British foreign secretary, in a speech before the House of Commons. He was director of military operations for the British general staff when the British were opposing the German drive practically unaided, and he made his famous "Where is Blenheim?" statement.

"I am absolutely certain that a real league of nations is going through," said Curzon. "Every day it is more fully realized that the league is not an ideal, but a workable proposition. The more closely the matter of restriction and restriction is given to and the more actual information is obtained, the more certain it is that we will not get enough out of the central powers, either in money or material to set the world on its legs. It is obvious that, at the very best, our repair bills will be only partially met."

There won't be any indemnities from which the world will be able to finance the new development of the German colonies, Turkish territories or the new republics which are struggling upward in eastern and southeastern Europe.

"We recognize that one of the chief difficulties in maintenance of the league is that democratic states are unable to commit themselves to definitely supplying troops to fight in any part of the world to uphold the league's authority. This difficulty need not arise. Great Britain and the United States are recognized as holding the chief weapon of the league, economic pressure, the method for exercising which is naval force. If the United States and Great Britain agree to maintain the naval power at the disposal of the league, I don't see how any nation will ever again dare to think of war."

Stores Sell Iron Crosses

German Newspaper Says Traffic Is Indecent

Coblenz, Germany. — The German food authorities find the flourishing sight-seeing excursions in the American bridgehead area of the Rhine valley when they threatened drastic punishment for local stores selling iron crosses. Purchasing army decorations either to carry home as souvenirs or to sell in Paris at greatly advanced prices is a favorite occupation of the junkies. One junkie reported bought 100 iron crosses at \$2 each, secured of selling them in America at \$10 each.

A local newspaper denounces the traffic in iron crosses as an indecency, particularly disgraceful in stores selected for the distribution of food supplies. It says that American flag crosses for sale in their windows the American authorities will be very strict in the right to sell food.

Put Responsibility on Rostky
Bern. — A violent emotional outburst between the French and German nationalists, with many reciprocal abuse and accusations, marked one of the latest of the international Labor and Socialist conference.

Otto Wella, the former military commander of Berlin, defended the German position, and said that the German Socialists already had set the question of responsibility for the war in having taken all power from the princes and kings. Wella accused Great Britain of having killed 700,000 German women, children and old men by the "hunger blockade."

A proposal is made in British Columbia to remodel the police force of the province on the lines of the Northwest Mounted Police.

Small Nations Want To Be Given Greater Power

Paris. — Although the five great allied and associated powers who are directing the peace conference have turned over most of the work to commissions, the society of nations question, especially with reference to the smaller nations, is becoming a more or less a knotty problem. The smaller nations, it is declared, want full equality in a society of nations, and the greater powers than the plain already outlined give to them. The great powers, on the other hand, are faced with a situation that is not easy to give a member on a supreme court of nations they might find themselves in the minority, although their interests might be much greater and their power much more potent.

It is not believed that the great powers would consent to an arrangement of this sort and a situation similar to that at the second Hague peace conference appears to be in the making. The experts on the society of nations question are here, and of finding a way to get the smaller states to agree to the plan, so that it will not fail as Elihu Root's scheme for a supreme court of nations failed at the first conference.

Italy's War Debt

Relatively Higher Than That of the Other Allies

Rome. — Italy's national debt is now more than \$12,500,000,000, whereas when she entered the war it was about \$7,500,000,000, declared Luigi Luzzatti, finance minister, and a leading Italian financial authority, in a statement urging financial aid to Italy. He said that when pensions, government bills to manufacturers and other necessary expenditures had been paid, the national debt probably would total \$16,000,000,000.

"Italy, I am glad to say, leads the 'hole' world in the relative light of its war debt," he said. "Subsidizing Italy's losses in men and money, her national wealth is only about \$20,000,000,000. If all the war losses of the estate should be thrown together in one consolidated sum, Italy and France, whose losses in men and substance have been the greatest, would be compensated by bearing a smaller proportion of the war debt."

"The United States and Great Britain are not only strong, but generous, and they will acknowledge that Italy and France, the two principal victims of the war, are suffering from the ravages of the war, and that, therefore, they should be generously helped."

Must Have Coal

Paris. — Hugh S. Gibson, Captain T. C. Ferguson and other representatives of the international railway conference, returned to Paris to make a report to Herbert Hoover, director general of the commission, after several weeks' travel through Poland, Austria, Hungary, Czechoslovakia, Yugoslavia and Serbia. "Coal is now the most pressing need in Czechoslovakia, Austria and Hungary," said Capt. Ferguson. "and without an increased fuel supply food relief on a large scale is impossible. Only one source has been the possible number of trains are operating in Austria and Hungary because of lack of coal, and conditions are little better in Czechoslovakia."

Program Suggested

Resolutions for World League Adopted by Peace Societies

Paris. — A conference of allied peace societies, comprising delegates from the United States, England, France and Belgium, favoring the league of nations project, has given out resolutions adopted by it in addition to the aims contained in the plans handed by Leon Bourgeois to the allied plenipotentiaries.

They declare for an international bureau of labor and peacetime relations between employers and employees in line with the British peace society's program of conciliation. They recommend the creation of an international commission of education to inform the public on the functions of the league of nations, and to educate the people in the doctrines of democratic citizenship.

They further recommend that the enemy countries be required to limit their armament and manufacture of arms and munitions in order to enable the enemy states to reduce their military forces.

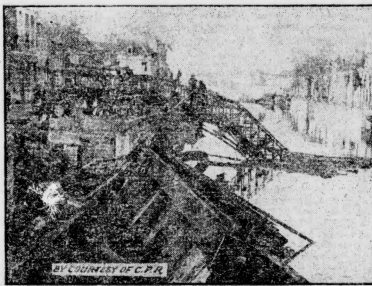

They declare that the allied states should consent themselves to the economic control of arms and munitions of war now in their hands as a result of the war and the seizure of many stores, and should forbid the sale of arms and munitions by the states in the league to other states. American delegates declined to endorse some of the recommendations, holding that disarmament would solve the state of the league, to maintain sufficient force of control of the enemy states, the latter were completely disarmed. They also objected to the prohibition of the manufacture of arms and munitions as calculated to prevent scientific developments that might benefit the world.

German Damage Buildings
Darmstadt. — During the bombardment of Bremen, the old cathedral, the main church and the city hall were damaged and many houses partly destroyed, according to an Exchange Telegraph company despatch from Copenhagen.

The government troops made their entrance after the city had been bombarded. Many persons are reported to have been killed in the bombardment. Armed Spartans from Gotha are on their way to Bremen to the support of the Spartans there.

"Save the Kaiser" Society Organized
Amsterdam. — Societies to "save the Kaiser" from being handed over to the allies are being organized in Germany, according to the Volksrecht, a German daily. Ernst Friedrick, second son of the former emperor, is said to have written a letter to the premier demanding that the government assist in the plan.

The Trail of the Hun

The River Scheldt and broken bridge at Tonnai

Need Long Credits

In Order to Give the Nations Breathing Time

Paris. — Alvin W. French, president of the Equitable Trust company of New York, who is visiting France for the purpose of studying the financial condition of the country, said today, if possible, some form of long credits, and to the Associated Press:

"The temporary suspension of liquidation by the governments to one another ought to be one of the first steps in the inter-governmental finance. I mean that for the present we should have an international moratorium between the governments in order to give the nations breathing time."

"France owes England and America, Belgium owes France, England and America; Italy owes America, England and France. The small nations owe the big ones. No one of them, large or small, can conveniently pay at the moment. Hence, they all need an international moratorium, to afford time for reconstruction. Even Germany would have time to make payments."

"It seems to me that this is the only way in which the nations can get a breathing time in itself, may appear. My military support, now that the occasion for such support has practically disappeared, becoming a serious factor in the establishment of a genuine union with France for the promotion of the mutual interest of both countries."

Wounded Coming Via U. S.

Washington. — Plans for landing wounded Canadian troops at Portland, Maine, with the approval of the United States government, were announced by the American Red Cross. Transfer of the men by rail across Maine and New Hampshire will be made by the Canadian government, and the first load will depart at Portland in a few days, two consignments a month later.

The Canada, the first of the world, 1,500 ton steamers being built in British Columbia for the French government, has been launched from the Lyall shipyards at Vancouver, and is expected to be ready for service in Vancouver, and twenty at Victoria.

W. N. U. 1250

Direction Finding Stations Established

Will Prove of Great Value to Vessels Lost in Fog

Ottawa. The department of the naval service has established on the east coast of Canada four direction finding stations which will, it is expected, prove of great value to vessels lost in the fog and unable to determine their position. These stations are located at Cape Sable, at the mouth of Halifax harbor; Cape Canis, and Cape Race, Newfoundland. From any or all of these stations a vessel equipped with wireless may obtain a bearing while at a distance of several hundred miles from the coast.

At an ordinary wireless telegraph station there are no means for determining the direction from which incoming signals are being received. At the opening of the war efforts were concentrated upon the development of the direction finding stations in order to locate the position of lost ships carrying wireless equipment. An invention by two British scientists, and this has been installed in the Canadian stations. Since the signing of the armistice, however, the direction finding stations have been placed at the disposal of commercial shipping and information to this effect is being distributed all over the world.

British Forces Prepare to Evacuate Northern Russia

To Draft New Treaty

Paris. — Sir George Foster, Dominion minister of trade and commerce, interviewed the Associated Press, and said that France had informed Canada of her desire to denounce the 1905 treaty, as well as all other similar treaties. Pending fresh agreements, traffic of goods would continue under the old conditions. Continuing, Sir George said that the future changes would naturally depend on the attitude of the two countries in accordance with the customs arrangements.

Ontario lumbermen have sent a representative overseas to endeavor to secure revocation of the large orders of lumber required in reconstruction work in Great Britain, France and Belgium.

The Canadian National Railway has placed orders for the construction of 2,830 cars of all varieties.

Paris. — With the French still silent, the British are continuing to prepare for evacuation of their forces from Russia, whether the French decide or not.

In British military circles it was admitted that only the question of physical difficulties will determine whether their troops will come out by the end of April, or sooner. The Murmansk contingent can be moved immediately with comparatively little difficulty, but in the Archangel district there is already a considerable barrier of ice and it is recognized that a quick movement would be attended with great danger. The troops involved include 4,000 Americans and 20,000 British and Canadians. There are also great quantities of supplies and material in that region, which the allies have no intention of abandoning. However, the military problem has been carefully studied and plans are reported to have been completed even to the evacuation of the troops by sea, which will be required.

Claim Complete Success

Royalists in Portugal Have Claimed Monarchy

Lisbon. — A despatch from Oporto says that royalists complete success of the republicans at Elvas, 12 miles from Badajoz. The despatch adds that the troops have proclaimed a monarchy.

Lisbon. — Monarchist troops, it is announced, have been defeated in action at Covilha, southeast of Oporto, near the Spanish frontier, by republicans forces under Lt. Fontes, who are advancing on guard to the north. The republican flag now floats over the towers of Covilha and Castello Branco and the monarchists are retreating on Rego, where their headquarters have been established.

Along the coast the republicans have occupied Fosca and Arzaga and the monarchists are evacuating Escoriza. Communication with Lisbon has been restored as far north as Aviro.

Military courts have been established to consider the question of dismissing civil and military officials hostile to the republican regime. The government, it is added, has no confidence in the officers of the army and penitentiaries will be dismissed.

The government announces that the monarchist elements in the country will be held responsible for all damages in the zone where fighting is now going on, as well as the expense incurred in putting down the monarchist movement.

Allies Must Watch Germany

Brother-in-Law of Former Russian Emperor Issues Warning

Paris. — The former Grand Duke Alexander Mikhailovich, brother-in-law of the former Russian emperor, who has arrived in Paris, as he declares, not for political reasons, but to make known the truth about Russia," says in an interview in the Matin that the allies must beware of Russia.

"France has every reason to 'save Russia,'" he declared. "If you do not intervene now, be sure that Germany will intervene in her own time. Beware of Germany. That people, which is now at your mercy, hides within itself a hate which shall find its first revenge in Russia."

"A league of nations or a society of peoples is a myth of the past. It remains to be seen if the nations will not leave death themselves a mortal blow by hesitating too long to chase the Russian rose which threatens to poison the whole world."

France Takes Stern Measures To Suppress Food Profiteers

French Work Day Plan

Berlin. — The French forces of occupation, according to a special despatch to the Associated Press from Frankfurt-am-Main, have taken possession of the Hachtler dye and chemical works and French chemists are working with German chemists in putting out dyes and certain chemicals to be exported to allied countries. Shipments of the chemicals to points in Germany have been prohibited.

Paris. — The government bill under which it is intended to repress increased prices of foodstuffs and speculation in, and the curbing of foodstuffs has been drafted. The cabinet met and examined into the subject of the increased cost of living and it was decided then to prepare this bill.

Under the measure any attempt to interfere with free commercial competition will be punished by a fine of 100,000 francs to 500,000 francs. Increased interference was carefully defined in broad language in the bill. Penalties are provided on a greatly increased scale in the case of a person operating illegally in a commodity in which he is not given to persons convicted, not in the newspapers, but by offering documents to their houses, or by offering to use the public press to make known the truth about Russia," says in an interview in the Matin that the allies must beware of Russia.

A bill of the bill is that a second offender, on conviction, may be forbidden to exercise any trade for five years and also forbidden to hold any office in the administration or the establishment in which he has previously worked.

Publicity is to be given to persons convicted, not in the newspapers, but by offering documents to their houses, or by offering to use the public press to make known the truth about Russia," says in an interview in the Matin that the allies must beware of Russia.

The trial court is to fix the size of the notice to be posted and the time it shall remain posted. Extra penalties are provided for the suppression or curbing of notices by convicted persons.

ALBERTA SCHOOLS OF AGRICULTURE

Special Short Course Schools

Will be held from
February 17th to 28th, Inclusive,
For the benefit of

A Song for Every Mood

Music gives expression to every human emotion.
All that is happy and beautiful in life, has been
expressed in music.

When things seem bright and cheerful because
a ray of happiness has come into your life, you need
an outlet to give vent to your feelings.

When sorrow or depression comes, the need of
consolation is even greater.

It is at such times that you derive the greatest
comfort from

The NEW EDISON
"The Phonograph with a Soul"

Then one sweet note of the voice of Anna Case,
or one ripple of melody from the bow of Albert
Spalding, puts your soul in harmony with the world.
Music—real music—is one of life's greatest boons.
Edison music is real music because the New Edison
does not merely imitate, it re-creates. One never
tires of the New Edison, the novelty never wears
off, because there is no
novelty to wear off. It is
not just another "talking
machine". It is decidedly
different. To appreciate
the difference you must
hear it.

We will gladly submit
the New Edison to your
musical judgment either
here or in your own home.

O. L. Reinecke, - Clareholm, Alta.

Thrift in Sunday Schools
If it can be arranged, talks on the
thrift campaign will be delivered
regularly in the Alberta Sunday
Schools as part of the teaching of
good citizenship.

NOTICE

In the Matter of "The Com-
panies Winding Up Ordinance
1903" (being Chapter 111 of
the Consolidated Ordinances
of the North-West Territories)

AND
In the Matter of The Foothills
Lumber Company, Limited,
of Clareholm, Alberta.

Notice is hereby given that all
Creditors of the above corporation
and others having claims thereon are
required to send to the undersigned,
the Liquidator thereof, on or before
the 21st day of March, 1919, a full
statement fully verified of their claims
and of any securities held by them,
and that after that date the Liquidator
will distribute the assets of the
said Corporation among the parties
entitled thereto, having regard only
to the claims of which the Liquidator
has then notice.

Dated this 4th day of January,
1919.

J. B. WATSON, Chartered Accountant,
Liquidator, 201-203 Lougheed
Bldg., Calgary, Alberta.

Published in a newspaper on the
17th, 24th and 31st of January, and
7th of February, 1919.
